

CASE STUDY

WASHINGTON METROPOLITAN AREA TRANSIT AUTHORITY

Project Overview

Since 2018, PAX Services Group has delivered projects for the Washington Metropolitan Area Transit Authority (WMATA) through its Multiple Award Task Order Contract. Work has spanned transit facilities and parking garages, with a combined value exceeding \$8.5 million. The scope has included roof repairs and replacement, waterproofing, structural repairs, and facility improvements. Each project required coordination around an operating transit system, with attention to safety, quality, and minimizing disruption.

PAX managed work across locations with varied scopes and complexities, addressing individual facility needs within the broader contract program. Our ongoing relationship provides highlights capital planning and asset management.

Through roofing and exterior services, PAX supports WMATA's facility needs and helps protect long-term asset value.
