

CASE STUDY

WALTER REED NATIONAL MILITARY MEDICAL CENTER

Project Overview

The Walter Reed National Military Medical Center was a challenging reroofing operation on an eight-story, fully occupied Naval hospital, renowned for its complex roof systems.

With 26 distinct roof levels and a variety of roofing types, the project required a complete tear-off and replacement of the existing roofs. Our team approached this task with meticulous attention to detail, carefully managing noise, logistics, and odors to minimize disruption to hospital operations and ensure patient comfort.

Through precise coordination and expert execution, our team delivered a durable, high-quality roofing solution that met the demanding needs of this critical facility while maintaining a safe and efficient work environment.

Key Statistics

Services: Roof Replacement

Size: ±180,000 SF

Industry: Healthcare

Location: Bethesda, MD

Contract Value: \$5,600,000

Contract Duration: 5 Months
